MOELLER STONE CARE

PRODUCT SPECIFICATION

HMK® R159 - CERAMIC TILE CLEANER

- **Special cleaner for glazed and unglazed tiles, sanitary ware and ceramic tiles.**
 - **Removes dirt, lime scale, urine stains, soap residue and light grout smears from ceramic tiles and sanitary ware.**

HMK® R159 is a special cleaner that removes dirt, lime scale deposits, urine stains, soap residue and light cement and grout smears from glazed and unglazed ceramic tiles, sanitary ware and brick products. HMK® R159 also cleans the grout around tiles and sanitary ware. For interior and exterior use.

Important: Acid sensitive surfaces such as polished marble and limestone, enamel, chrome coating, decorated tiles, plastic, mirror etc... can be damaged by contact with HMK® R159. For these products use HMK® R155 Intensive Cleaner - acid free instead.

Instructions: If under floor heating exists, switch it off and allow the surface to cool. Apply HMK® R159 diluted with water (1:2 to 1:15) depending on the intensity of the dirt. Use a scrubbing brush, stiff hand brush or suitable pad to work the HMK® R159 into the surface. Leave for around 10 minutes but do not allow to dry. Scrub the area again and remove the dirty liquid. Afterwards rinse the area thoroughly with clean water. Repeat the procedure in the case of very strong contamination. For very stubborn dirt HMK® R159 can be used undiluted.

When using a wet vacuum we recommend that you add HMK® Z702 Defoamer to the water in order to regulate the amount of foam.

Use HMK® R160 Mould Remover for the removal of algae, fungus, and mildew.

Coverage: About 10-100 m² per litre.

Warning: Chemical product. Contains inhibited phosphoric acid. Corrosive. Avoid eye/skin contact and breathing vapour or mist. If exposed flush/wash with water and seek medical attention. Keep container closed and out of the reach of children. See Material Safety Data Sheet for more detailed information.

Packaging: 12 x 1 litre bottles/box; 2 x 5 litre cans/box; 2 x 10 litre cans/box.

Storage: Store in cool place.

Testing: Always test the product in an inconspicuous area to evaluate suitability, coverage and performance. Do not use the product in temperatures below 12° and above 25°C.

Limitation of liability: The liability of HMK® Moeller Stone Care for defective products and any claims for damages whatsoever is limited to the purchase price of the products. HMK® Moeller Stone Care shall not be liable for any consequential damages. No other warranty or representation is made or implied.
