MOELLER STONE CARE

PRODUCT SPECIFICATION

HMK® P717 - LIQUID POLISHING WAX FOR PROFESSIONAL USE

- **Ready to use polishing wax for refreshing worn, scratched and dulled natural and artificial stone surfaces.**
- **Gives a brilliant shine to the surface and reduces the penetration of water and dirt.**
 - **For interior use only.**

HMK® P717 is a ready to use, quick drying polishing wax that enhances the color and structure of soft and hard natural stone, agglomerate marble etc. and gives the surface a brilliant shine after polishing. The penetration of dirt and water is also reduced. For interior use only.

NOTE: Do not use on rubber, plastic, varnished surfaces, treated or waxed wood and solvent-intolerant surfaces. Remove all foodstuffs from the area before work is commenced.

Instructions: If under floor heating exists, switch it off and allow the surface to cool. Clean the area to be treated thoroughly and allow it to dry (max. 2-4% moisture). Apply HMK® P717 thinly and evenly with a soft cloth that does not loose fibres or flat washmop. Once fully dry (about 20-30 min.) buff the matte film either by hand with a soft cloth or by using a buffing machine with a lambswool bonnet. Repeat the process for very absorbent materials or to increase the effectiveness of the shine.

Do not allow HMK® P707 to build-up on the surface in order to avoid scuff marks and smearing. HMK® P707 can be removed with HMK® R154 Stripper - Stain Remover.

To clean surface thoroughly before treatment use HMK® R155 Intensive Cleaner - acid free.

For regular cleaning and continued protection use HMK® P324 Liquid Stone Soap, a no-rinse natural product.

Coverage: About 10-20 m²/litre.

Warning: Chemical product. Contains turpentine substitute. Flammable. Ensure the area to be treated is adequately ventilated. Avoid eye and skin contact. If exposed, flush/wash with water. Keep out of reach of children. See Material Safety Data Sheet for more detailed information.

Packaging: 12 x 1 litre bottles/box; 2 x 5 litre cans/box.

Storage: Store in cool place and keep lid tightly closed.

Testing: Always test the product in an inconspicuous area to evaluate suitability, coverage and performance. Do not use the product in temperatures below 12° and above 25°C.

Limitation of liability: The liability of HMK® Moeller Stone Care for defective products and any claims for damages whatsoever is limited to the purchase price of the products. HMK® Moeller Stone Care shall not be liable for any consequential damages. No other warranty or representation is made or implied.
